

 LIZARTE	POLITICS	Rev.6
		May 23
Mission:	Mission: To contribute to sustainable mobility with high quality remanufactured products and outstanding service, developed by a committed, innovative team with a vocation for excellence.	
Vision:	Vision: To be recognized as the quality manufacturer with Europe's best service rate of steering systems.	

LIZARTE, provides solutions for the repair of vehicles, thus extending their useful life. The manufacturing line implies in its process, the recovery of elements previously discarded by the user, thus contributing to sustainable development.

Quality, Occupational Risks and the Environment are objectives and responsibilities of all staff, so all employees will be trained and adequately informed, la Prevención guaranteeing adequate facilities and infrastructures, implementing and maintaining a Prevention Plan in order to provide a safe workplace.

The management system based on IATF 16949 and ISO 9001 standards will further enable our progress through continuous improvement, emphasizing the prevention of defects and avoiding waste in each of the processes.

This participation, focused on continuous improvement, must have channels to develop effectively. de LIZARTE firmly believes in this and is committed to establishing and promoting means and/or systems that channel them. No member of LIZARTE should encounter obstacles to contribute their knowledge to continuous improvement. La Dirección General

This policy will help to fully meet the demands of our customers, meet their expectations, expand or penetrate new markets, gain advantages over our direct competitors, continuously improve the efficiency of our system and improve the marketing of our products.

The management of LIZARTE shows its commitment by allocating the necessary resources, both human and material, to achieve the established purposes, as well as its willingness so that all LIZARTE personnel are aware of this quality policy as well as the client's requirements.
